REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed to a method for using data stored in data storage format for storing color image with extended gamut color values that is compatible with limited color gamut imaging systems. Independent claim 1 identifies the uniquely distinct feature, "wherein a second section for storing information identifying image regions that have color values out of the limited gamut and a third section for storing the extended gamut color values for the image regions that are identified by the information stored in the second section". Independent claim 15 identifies the uniquely distinct feature, "wherein a second section for storing information identifying image regions that have color values out of the limited gamut and a third section for storing the extended gamut color values for the image regions that are identified by the information stored in the second section".
- The closest prior art, McCarthy et al. (USPN 6,335,983 B1), discloses a method for representing a digital image having color values with an extended color gamut in a storage color space having a limited color gamut including

providing a color adjustment function, adjusting the color values of the extended color gamut digital image to fit within the limited color gamut to form a limited color gamut digital image using the color adjustment function; while Epstein et al. (USPN 6,741,746 B2), disclose method and apparatus for processing image files, either singularly or in combination, fail to anticipate or render the above underlined limitation obvious.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
